Art Unit 1713

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 16-26 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Stavrianopoulos, U.S. Patent No. 4,843,122.

Claims are rejected for reasons of record as applied to the previously submitted claims. Applicant has argued that the requirement for homogeneous phase now inserted into the claims is not taught by the reference. This argument has been considered

Art Unit 1713

but not found persuasive insofar as the Examples specifically include reaction in solutions which are, therefore, homogeneous as to their nature. Furthermore, choice of medium for a reaction is obvious to select for one of ordinary skill in the art from among the few known which include reactions taking place in two phases or more and reactions in homogeneous systems. The homogeneous systems are more prevalent and choice of such would be at least prima facie obvious to one of ordinary skill in the art. The claims, therefore, continue to be either anticipated or rendered prima facie obvious from the reference to Stavrianopoulos. The specific choice of "activating reagent" is either anticipated by the reference or, for the specific examples recited in claim 24, at least prima facie obvious insofar as a variant of that structure is in fact used by the reference and would, at the very least, read on a "derivative" of that activating agent. The rejection made in the prior Office action, therefore, is herein repeated and made FINAL.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of

Serial No. 09/856,981

a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
